The reply must be filed within one of the following time periods:
- a) ☒ The period for reply expires 3 months from the mailing date of the final rejection.
- b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.
- Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The reply was filed after the date of filing a Notice of Appeal, but prior to the date of filing an appeal brief. The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☒ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
- (a) ☒ They raise new issues that would require further consideration and/or search (see NOTE below);
- (b) ☐ They raise the issue of new matter (see NOTE below);
- (c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.
- NOTE: See pages 2-5. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☒ will not be entered, or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
- The status of the claim(s) is (or will be) as follows:
- Claim(s) allowed: _____.

ADVISORY ACTION

This is in response to the Amendment dated February 4, 2005. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Arguments

Claim Rejections - 35 USC § 102

- I. Claim **8** has been rejected under 35 U.S.C. 102(b) as being anticipated by **Maenza et al.** (US Patent No. 5,494,782).

The rejection of claim 8 under 35 U.S.C. 102(b) as being anticipated by Maenza et al. is as applied in the Office Action dated October 4, 2004 and incorporated herein. The rejection has been maintained for the reasons discussed below.

- II. Claim **8** has been rejected under 35 U.S.C. 102(e) as being anticipated by **Yang et al.** (US Patent No. 6,409,902 B1).

The rejection of claim 8 under 35 U.S.C. 102(e) as being anticipated by Yang et al. is as applied in the Office Action dated October 4, 2004 and incorporated herein. The rejection has been maintained for the reasons discussed below.

Claim Rejections - 35 USC § 103

- I. Claim **9** has been rejected under 35 U.S.C. 103(a) as being unpatentable over

Yang et al. (US Patent No. 6,409,902 B1) as applied to claim 8 above, and further in view of **Krinke** (US Patent No. 5,997,709).

The rejection of claim 9 under 35 U.S.C. 103(a) as being unpatentable over Yang et al. as applied to claim 8 above, and further in view of Krinke is as applied in the Office Action dated October 4, 2004 and incorporated herein. The rejection has been maintained for the reasons discussed below.

II. Claim **10 and 11** have been rejected under 35 U.S.C. 103(a) as being unpatentable over **Krinke** (US Patent No. 5,997,709) in view of **Ueda et al.** (US Patent No. 4,537,732).

The rejection of claims 10 and 11 under 35 U.S.C. 103(a) as being unpatentable over Krinke in view of Ueda et al. is as applied in the Office Action dated October 4, 2004 and incorporated herein. The rejection has been maintained for the reasons discussed below.

Applicants state that the present amendment has amended the claims to replace the open transition phrase "comprising" with the closed transition phrase "consisting", thereby precluding the inclusion of additional steps.

In response, the present amendment to the claims raises new issues that would require further consideration and search.

Although the preamble of claim 8 is closed to additional steps, the body of claim

8 is open to additional steps because the steps of:

(a) "by a deposition film forming process" (from claim 8, lines 3-4) includes deposition film forming process steps. These steps include the deposition film forming process steps of **10 to 50** as shown in Fig. 1 of Maenza (col. 1, line 13 to col. 2, line 6); and

(b) "by an electroforming process" (from claim 8, lines 5-8) includes electroforming process steps. These steps include the electroforming process steps of **60-90** as shown in Fig. 1 of Maenza (col. 2, lines 7-35).

The preamble of claim 10 uses two transition phrases to present the method steps. They are "includes" (from claim 10, line 2) and "consisting" (from claim 10, line 7).

The word "includes" opens the claim to additional steps and the word "consisting" closes the claim to additional steps. This is contradictory as to the scope of the claim.

Furthermore, the plating, molding and performing steps (from claim 10, lines 9-12) are further limiting elements in the reproduction process recited in the preamble rather than the method of reproducing a master die.

Claim Objections

Claim 11 is objected to because of the following informalities:

Claim 11

line 1, "A property check method of a die according to claim 10" is improper.

Claim 10 is a method of reproducing a master die.

Appropriate correction is required.
